

# Strengthening the Climate Resilience of Caribbean Agriculture

**WEBINAR SERIES – Part 1**

**Date**

**August 19 - 8:00 Belize/9:00 Jamaica/10:00 AST/11:00 Suriname**

## **Practical Solutions for On-Farm Management of Soil and Water**

**Featured Speaker**

**Dr. Gregory Gouveia**

Lecturer - Soil Science

University of the West Indies

**This forum will provide participants with practical solutions for:**

- ✓ Improving nutrient management under climate stress conditions (flood & drought).
- ✓ Increasing production by adopting best practice and technology in soil and water management.
- ✓ Reducing emissions from fertilizer
