PRESENTACION

El Tratado de Libre Comercio de América del Norte (TLCN) representa uno de los acontecimientos de mayor relevancia en las actuales relaciones económicas internacionales, con proyecciones que sobrepasan las fronteras de los tres países signatarios (México, Canadá y Estados Unidos).

Para los países del Istmo Centroamericano -cuyo principal socio comercial es precisamente Norteamérica- y en especial para su sector agropecuario - que constituye la base de las economías y del desarrollo exportador de la región-, es de ingente actualidad analizar las proyecciones que puede tener el TLCN para la agricultura regional, a fin de disponer de elementos de juicio para la toma de decisiones en materia de política comercial y sectorial.

Como una contribución a ese objetivo, la Secretaría del Consejo de Ministros del Istmo Centroamericano, el Programa de Comercio e Integración del Instituto Interamericano de Cooperación para la Agricultura (IICA) y la Unidad regional de Asistencia Técnica (RUTA II), han estimado de utilidad poner a disposición del sector agropecuario de los países de la región el presente trabajo del Departamento de Agricultura de los Estados Unidos, que reseña las preferencias arancelarias para los productos agropecuarios otorgadas bilateralmente entre los EEUU y México en el marco del TLCN.

La información que aquí se presenta es una reproducción textual del documento " NAFTA Side-by-side Tariff Schedule, Rev. September 2, 1992", del United States Department of Agriculture - Foreign Agricultural Service (USDA/FAS), Washington D.C.

September 2, 1992

<u>COLUMN</u>	<u>DESCRIPTION</u>
1	<u>U.S. Harmonized Import Tariff Code</u> — 8 Digit. NAFTA tariff negotiations are based on the 8 digit commodity breakouts. The U.S. (import and export) and Mexican tariff schedules concord at a 6 digit level.
2	<u>Description</u> — Brief description of the U.S. 8 digit tariff category. More complete descriptions are given in the U.S. import tariff schedule. S22 = Commodity covered by Section 22 restrictions.
3	<u>U.S. Tariff Offer</u> — A = Immediate Phase-out of Tariff — Includes all Generalized System of Preference (GSP) Commodities D = Most Favored Nation (MFN) Tariff of zero B = Medium Term Phase-out — 5 Years C = Long Term Phase-out — 10 Years CATRQ = Sensitive U.S. Commodity with a tariff-rate quota safeguard — 10 Years C+ = Extra Long Term Phase-out — 15 Years SUCAR = Commodity covered in NAFTA Sugar arrangement S NOTE = Commodity covered in U.S. Sugar Headnote. Mexico receives GSP on these commodities. S22 = Commodity covered by the U.S. Section 22 import regulations.
4	<u>U.S. GSP for Mexico</u> — Commodity covered by GSP provisions — tariff rate is zero.
5	<u>Safeguard Quota Amount</u> — Tariff rate quota amount based on current trade. Three percent annual compound growth.
6	<u>U.S. Tariff Ad Valorem Rate</u> — All specific U.S. tariffs (xx cents/kilogram, xx cents/head, etc.) were converted to ad valorem equivalents based on 1990 trade values.
7	<u>Existing Specific U.S. Tariff</u> — For commodities in Chapters 7, 8, and 20 this column shows the specific (cents/kg or ad valorem percent) tariff.
8	<u>Reductions in U.S. Tariff for Mexico</u> — For several commodities in Chapters 7, 8, and 20 the existing U.S. tariff (specific or percent ad valorem) will be reduced immediately, and then phased-out.
9	<u>Mexican Tariff Code</u> — These numbers are the last two digits of the Mexican 8 digit tariff code. The first six digits are the same as the U.S. tariff code given in column 1.
10	<u>Mexican Import License</u> — A capital "L" indicates commodities requiring a license.
11	<u>Description</u> — Short Spanish description of the Mexican tariff category.
12	<u>Mexican Tariff Offers</u> — Mexican tariff offer. Same phase-out categories as U.S. tariff offer.
13	<u>Mexican Safeguard</u> — Initial quantity of safeguard or NTB duty-free quota. Three percent annual compound growth with the exception of barley/malt which will grow at 5%.
	<u>Licensed NTBs</u> = In-quota tariff is zero. The over-quota tariff equivalent is shown, as well as the initial quota. TO = Tariff Only Treatment.
14	<u>Mexican Tariff Rate</u> — Mexico's current Ad Valorem tariffs.
15	<u>Mexican Phase-out Design</u> — Straight = Linear Reduction; UR = 24% in first 6 years, then linear reduction. KC = Design used for U.S. orange juice tariff phase-out.

United States HS Code	Description	U.S. Rate - 1990		Existing Specific U.S. Tariff	Reductions in U.S. Tariff for Mexico	MEX Import License Code	Description	MEX Phase		MTs	%
		U.S. GSP OFR	U.S. Tariff Ad Va					U.S. Tariff Out	U.S. Tariff Design		

Notes:

1. All safeguard quotas and NTB quotas will grow by 3 percent compounded annually, except the Mexican barley/malt quota which will grow by 5 percent.
2. Mexican Uruguay Round phase-out is 24% over first 6 years, then linear reduction.
3. U.S. Uruguay Round phase-out for peanuts is 15% over first 6 years, then linear reduction.
4. The United States will exclude Mexico from the U.S. Meat Import Act.
5. Sugar = Tariff line in the NAFTA Sugar arrangement. These lines are part of the second-tier of the existing TRQ.
6. For about 20 tariff lines, Mexico will match the U.S. specific tariff, but in no case will exceed its own ad valorem rate. Both rates will be phased out over the applicable transition period.
