

## Project Management Unit

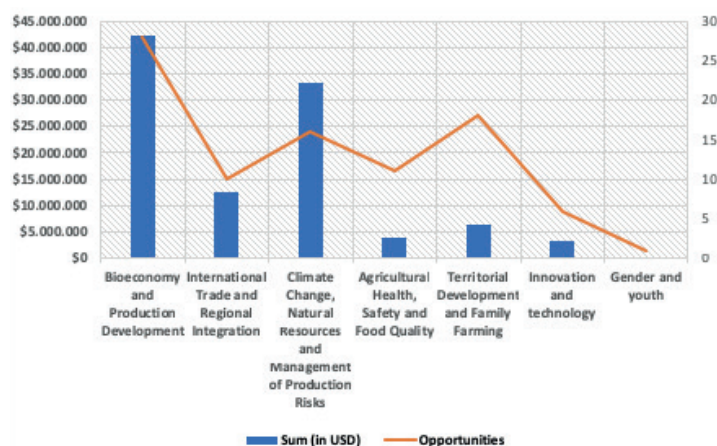

The synergy between the delegations, directorates, divisions and units of the Inter-American Institute for Cooperation on Agriculture (IICA) has been instrumental in identifying donors and mobilizing external resources for the development of technical cooperation.

### General statistics

- Open calls dashboard
  - 26 opportunities announced
  - Program priority areas: Climate Change, Natural Resources and Management of Production Risks, International Trade and Regional Integration, as well as Agricultural Health, Safety and Food Quality (AHFS)
  - Amount: USD 124,934,853
- Mobilizing external resources app (January - December 2019)
  - 226 opportunities
  - Amount: USD 790,961,971<sup>1</sup>
  - 93 opportunities approved by the counterpart

- Amount: USD 100,101,256
- If we add to the last amount USD 137.9 million in external resources assigned to all the Delegations of the Institute towards the end of October 2019, we obtain a grand total of USD 238 million. This represents 115% of the goal of USD 206 million, which had been established by the General Directorate for that year.

### Relationship between approved opportunities and IICA's technical programs and cross-cutting issues

1. This amount includes all opportunities at various stages of development (identified, negotiated, formulated and approved), under the direction of the delegations. The app is available on the Intranet at the following link: <http://apps.iica.int/OCR>
